

## + IT ALL ADDS UP +

With spending being so easy these days, it's no surprise that saving isn't. But if you would just put the plastic back into your wallet and say "later" to your latte, you could enroll as a Saver, open a savings account, and start making automatic deposits to that account—which could save you thousands of dollars a year. That's money that could go towards a new car, continuing education, or even early retirement. Because what starts with something as simple as rolling your change or bringing your lunch to work, is laying the foundation for a wealthier future. One that quite possibly could take place behind a new set of wheels.
